CHI 2017
EXPLORE INNOVATE INSPIRE

Invitation to Exhibit
Colorado Convention Center, Denver, CO
6-11 May 2017

CHI is the premier conference for human-computer interaction (HCI): the design, building and study of technologies to help people think, create and collaborate. Everything from the mouse to the smartphone has its roots in HCI!

**HCI Impacts Revenue**

HCI’s impact on the technology industry has been enormous and is still growing. Leading companies have increased their success through the growing use of HCI methods to (1) avoid wasting precious investment money from failed deployments of inferior technologies and to (2) generate new revenue by identifying under-served needs and then to envision, design and test innovative products and services. Through rigorous beginning-to-end methods that combine concept design, design critique, cognitive analysis, performance experiments and more, HCI researchers assess whether technologies frustrate, thwart, and confound people, then design solutions that serve, engage and extend people’s capabilities.

**HCI Impacts Innovation**

In addition to tremendous cost savings, the field of HCI has spawned billions of dollars of new revenue in innovative product and service categories. Everything from advances in mobile phones and graphical user interfaces to the Internet of Things and social media touches HCI, and many of the advances in today’s systems can be traced back to papers and presentations at the CHI conference.

**HCI Creates Business Advantage**

As a concrete example of the bottom-line value of HCI consider a recent US court decision (Apple Inc. v. Samsung Electronics Co., Ltd) that did not recognize infringement of 3 technology-based patents, but awarded a significant sum in damages for the infringement of 7 patents related to design and interaction. This ruling clearly illustrates that the court believes the HCI-related intellectual property created tremendous business advantage here.

Each year, CHI sees thousands of the top researchers, scientists, and designers in the world attend to present their latest research, solve their hardest problems, learn new material and build their networks. 92% report it was “worth their time and money”, a remarkable approval rating for an event of this size.

Top corporations, ranging from processor manufacturers (Intel), operating system vendors (Microsoft), laptop, tablet and smart-phone manufacturers (Samsung, Dell, Hewlett Packard, Apple), web service providers (Google, Yahoo, eBay, Amazon), telecommunication carriers (NTT Docomo, Verizon), automobile manufacturers (Ford, Audi), as well as emerging companies and startups, send employees to the CHI conference to present and hear the world’s most advanced innovations.

There are many reasons companies exhibit at CHI. Most companies exhibit for a combination of these reasons:

1. To showcase new corporate inventions and innovations. CHI is a great way to get the top decisions makers in HCI and UX to see your products and research, and incorporate them into their work.
2. To recruit the top HCI, UX and design talent, from entry level to CxO level positions at one of the most diverse technology conferences.
3. To be publicly seen supporting cutting edge, diverse, multinational and impactful research, education, science and design.

Please join us at the Colorado Convention Center in Denver as a CHI 2017 Exhibitor.

CHI is the premiere worldwide forum for professionals interested in all aspects of human-computer interaction (HCI). The conference features work on the hardware and software engineering of interactive systems, the structure of communication between human and machine, characterization of the use and contexts of use for interactive systems, methodology of design, design artifacts and experiences, and future technologies.

Conference Format

CHI 2017 is a four-day conference (Monday through Thursday). The conference is organized around papers, presentations, speakers and discussions on how to create better interactive experiences. As the foremost conference in its field, CHI 2017 continues to offer a wide-ranging program, supporting and facilitating the exchange of ideas within and between all of these communities.

Who Will be at CHI 2017?

CHI 2017 brings together computer scientists; visual, interaction, product and experience designers; human factors and ergonomics professionals; psychologists; social scientists; software developers; software/hardware architects; engineering, product and quality managers; educators and evaluators. These are the professionals who work at the heart of making systems and products usable.

CHI 2017 will be held at the Colorado Convention Center, in the heart of Denver, Colorado, and the theme is Explore, Innovate, Inspire. The CHI conference brings together people from multiple disciplines and a diversity of cultures to explore new ways to practice, develop and improve methods and systems in HCI, to discuss ideas that can lead to innovations, and to inspire us all.

CHI brings together attendees from countries around the world, representing a myriad of cultures and application areas, whose diverse perspectives influence each other. CHI 2017 is truly an opportunity to find the latest in research and design of the world's most innovative technologies.

If your organization supplies systems or products that involve users interacting with computer technology and the user aspects are important to the success of your product, then this conference will be of special interest to you. CHI 2017 is the place your organization needs to be to learn about leading-edge research and imminent technologies.

Last year’s CHI conference in San Jose, California (CHI 2016), was a highly successful conference with over 3800 attendees from around the world. Previous conferences in Seoul (CHI 2015), Toronto (CHI 2014), and Paris (CHI 2013) were also highly successful, hosting between 2500 and 3000 attendees from over 50 countries. Past CHI attendees have worked in the computer industry, education, research, telecommunications, government, finance and banking as well as many other areas. CHI 2017 is expected to be another highly successful conference, and we anticipate very high attendance.

Every effort will be made to respect the Exhibitor's booth preferences whenever possible, but ACM/CHI 2017's decision will be final. ACM/CHI 2017, in its sole discretion, reserves the right to make changes in booth assignments that it deems are in the overall best interest of the exhibit program. Neither the Exhibit Building nor any of its employees nor representatives, nor any representative of ACM/CHI 2017, nor any subcontractor will be responsible for any injury, loss, or damage to the Exhibitor, the Exhibitor’s employees, or property, however caused. In addition, the Exhibitor must assume responsibility for damage to the Exhibit Building property and indemnify and hold harmless the Exhibit Building from liability, which might ensue from any cause whatsoever, including accidents or injuries to Exhibitors, their guests, or employees. The Exhibitor must also assume responsibility for any accident, injury or property damage any person incurs while viewing his exhibit where such accident, injury, or property damage is caused by the negligence of the Exhibitor, agent, or employees. In view of the foregoing, Exhibitors are urged to place “extra territorial” and other coverage on equipment and exhibits, and arrange for extended public liability insurance with their regular insurance carrier, particularly if they are conducting experiments or demonstrations using heat or high voltage. ACM/CHI 2017 and the ACM/CHI 2017 Exhibits Management will cooperate fully but cannot assume responsibility for damage to Exhibitors’ property or lost shipments, either coming into or going out of the premises, or for moving costs. Any damage due to inadequately packed property is Exhibitor’s own responsibility. If Exhibit fails to arrive, Exhibitor will nevertheless be responsible for booth rent and no refund will be made. Exhibitors should carry insurance against such risks.

15. Hospitality Events
Hospitality space may be available in designated conference hotels and the Exhibit Building. All hospitality suite functions are required to be registered with the Exhibit Coordinator and cannot conflict with any of the conference courses, plenary sessions, technical sessions, or general receptions. Hospitality space is made available first to conference sponsors and then on a “first come, first served” basis to Exhibitors. Please contact the CHI 2017 Exhibit Coordinator for further information on reserving hospitality space.

16. Cancellation or Termination of Exhibit
If, because of war, fire, strike, Exhibit facility construction or renovation project, government regulation, public catastrophe, Act of God, public enemy, or other cause beyond the control of ACM/CHI 2017, the Exhibit or any part thereof is prevented from being held, is canceled by ACM/CHI 2017, or the Exhibit Space becomes unavailable, ACM/CHI 2017, in its sole discretion, shall determine and refund to the Exhibitor its proportionate share of the balance of the aggregate exhibit fees received which remain after deducting expenses incurred by ACM/CHI 2017 and reasonable compensation to ACM/CHI 2017. In no case shall the amount of refund to Exhibitor exceed the amount of exhibit fee paid.

17. Exhibitor Cancellation
Cancellation of any portion of this Application/Contract by the Exhibitor will be accepted only at the discretion of ACM/CHI 2017 and then only based upon the following refund policy: Prior to 17 February 2017, fifty percent (50%) of the total contract fee will be refunded. After 17 February 2017 no refunds will be given unless space is resold. If the space is resold fifty percent (50%) of the total contract fee will be refunded. Except as the Exhibitor’s rental obligation may be reduced as set forth in the preceding sentence, the Exhibitor is responsible for total booth rental irrespective of the reason for the cancellation by Exhibitor or because of the failure of an Exhibit to arrive for any reason.

18. Exhibitor Conduct
Exhibitor and its representatives shall not congregate or solicit trade in the aisles. The prior written consent of ACM/CHI 2017 is required for the employment or use of any live model, demonstrator, solicitor, or device for the mechanical reproduction of sound. Such employment or use shall be confined to Exhibit Space. ACM/CHI 2017, in its sole and absolute discretion, may withdraw its consent at any time, in which event Exhibitor shall terminate such activity immediately. All promotional plans must be submitted to ACM/CHI 2017 for approval. Distribution of pamphlets, brochures, or any advertising matter must be confined to the Exhibit Space. Exhibitor is prohibited from bringing alcoholic beverages into the Exhibit Area. Exhibitor shall refrain from any action that will distract attendees from attendance at the Exhibit during open hours. A list is available 3 weeks prior to the conference or 3 weeks after it. Exhibitor must indicate which list is preferred on the Application/Contract. It is understood that the list is postal addresses only for a single use. Exhibitor agrees not to sell, lend or give lists to any parties outside of Exhibitor’s organization.

21. Insurance Requirements
All exhibitors participating in the CHI 2017 Exhibition are required to obtain a general public liability insurance in the amount of one million dollars ($1,000,000) per occurrence. ACM SIGCHI and Convention Center shall be named as additional insureds on the general liability policy. Such insurance maintained by the exhibitor must be issued by an insurance company with an A.M. Best rating of A– or higher and shall include coverage of the indemnification obligations of the exhibitor under these rules and regulations. Each exhibitor is also required to carry workers compensation protecting employees in accordance with the laws of the state or province in which the exhibitions is being held. Nothing in this paragraph shall limit the amount of liability an exhibitor may be responsible for.

22. Agreement to Conditions of Contract to Exhibit
Exhibitor agrees to observe and abide by the foregoing Conditions of Contract to Exhibit and by such additional Conditions of Contract made by ACM/CHI 2017 from time to time for the efficient or safe operation of the Exhibit including, but not limited to, those contained in this contract. In addition to ACM/CHI 2017’s right to close an Exhibit and withdraw its acceptance of this Application/Contract, ACM/CHI 2017, in its sole judgment, may refuse to consider for participation in future Exhibits an Exhibitor who violates or fails to abide by all such Conditions of Contract to Exhibit set forth in the Application/Contract. There is no other agreement or warranty between the Exhibitor and ACM/CHI 2017 except as set forth in this document. The rights of ACM/CHI 2017 under this contract shall not be deemed waived except as specifically stated in writing and signed by an authorized representative of ACM/CHI 2017.
**EXHIBIT SPACE APPLICATION/CONTRACT**

**Agreement:** Exhibitor hereby requests space at the ACM/CHI 2017 Conference and Exhibition to be held at the Colorado Convention Center, in Denver, Colorado, from 6–11 May 2017. Acceptance of this Application/Contract by ACM/CHI 2017 converts it to a full contract for exhibits, and shall be considered a binding agreement between the Exhibitor and ACM/CHI 2017.
